## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 7-16, 21, 22, 26-35 are allowed.

The applicants amended canceled claims 1-6, 17-2-, 23-25, added new claims 26-35, and amended the existing claims by incorporating the allowable subject matter as indicated by the examiner in the First Office Action mailed 12/30/2004.

The following is an examiner's statement of reasons for allowance:

As to Claim 27, the prior art of record taken along or in combination, fails to disclose or render obvious the processing logic generating and sending feed back signals to the motion control system to cause the motion control system to scan the end of the optical fiber across one or more layers of the optical device until the processing logic determines that a layer in which the optical waveguide exists has been found, in combination with the rest of the limitations of the claim.

As to Claim 31, the prior art of record taken along or in combination, fails to disclose or render obvious causing the motion control system to scan the end of the optical fiber across one or more layers of the optical device until the processing logic determines that a layer in which the optical waveguide exists has been found, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
